

OPPORTUNITY: *Tell Political Leaders to Restore Savings and Investments.*

A MANDATE FOR STATE AND FEDERAL LEGISLATORS

My representatives are to support the citizen-owners of publicly created corporations or other created legal persons by minimizing alternative earnings from trading those securities. My representatives are to tax at no less than 10% any resale of investments that have not been held for periods of five years, and any sale of future interests in investments. This shall not apply to the transfer of securities held on physical goods when they are transferred to retailers or end users.

The corporate entity shall, at all times, be wholly owned by its investors. Officers of the corporation shall be required to maintain knowledge of the divided value of the corporation associated with each unit of investment, and on demand shall redeem owner investments at that value less cost of performing the investment transactions. Legislation shall recognize that a corporation cannot own a piece of itself; and undistributed stock may not be given a share in corporate ownership.

Organizations given legal standing by this state shall not increase their public investment base to the detriment of established owner-investors without the consent of owner-investors who hold at least 80% of the investment.
