

OPPORTUNITY: *Tell our Leaders to Manage our Economy for Our Benefit.*

A MANDATE FOR CONGRESSIONAL REPRESENTATIVES

My representative is to vote against any law that would either place or continue government regulation of private sector economic operations until there is a published economic analysis of the whole cost and whole benefit associated with that effort. My leaders are to support the use of intelligent investment when it comes to impact upon our economy.

My representative is to seek out and address, on my behalf, any element of our economy that is not operating in the economic interest of the public. My representative is to work to publish the harm it accomplishes, and to identify those in its operation who are supporting its harmful behaviors.

My representative is to legislatively support and enhance the ability of the owners of errant industries or businesses to come into effective authority over its harmful employees, and to remove those who are acting against the public interest.
