

OPPORTUNITY: *Tell State Legislators to Criminalize Doctor's Malpractice Insurance.*

A MANDATE FOR STATE LEGISLATORS

My representatives are to enact legislation to make insuring doctors against the consequences of their malpractice a felony for those who directly write the policy, and a misdemeanor for the senior leaders of the insurance business that allows or supports that effort through their business practices.

Police agencies and prosecutors at all levels shall be authorized and directed to prosecute these criminal actions; and State courts shall be directed to receive and act upon criminal proceedings based upon this legislation. They shall also be directed to deny legal effect to any insurance collection under one of these agreements.

Insurance businesses shall be encouraged to provide malpractice insurance for individuals and families to share risk of costs from malpractice that are not covered by regular insurance. Insurance providers can be subrogated to pursue malpractice remedies against medical providers on behalf of their clients.

My representatives are to explore the establishment of a public shared-risk pool to both support the state's doctors in the proper practice of medicine and to operate for the benefit of patients who receive bad results from the proper practice of medicine by licensed practitioners.
