

OPPORTUNITY: *Tell State Legislators to Manage Medical Insurance.*

A MANDATE FOR STATE LEGISLATORS

My representatives are to enact legislation to make it a misdemeanor to charge for administrative support of insurance as a medical cost, or to charge any patient for insurance support where the patient is not receiving that support.

My representatives are to enact legislation to make it a misdemeanor to charge patients different amounts for services depending on their relationship, or lack of relationship, with an insurance carrier.

My representatives are to enact legislation to require the public offering of limited catastrophic insurance coverage for any corporation writing medical insurance in this State. Insurance offers shall set forth a schedule of basic costs showing cost for various levels of catastrophic coverage depending on the base cost where catastrophic coverage begins. These offers may be tailored for individual or family risk as are other insurance policies.

My representatives are to explore, and are authorized to manage, a public medical insurance system, at regular prices, for medical support of any indigent citizens of this State. This coverage shall be limited to an allowance approved by the citizens of the state for this purpose. Attempts to reduce costs for those on public assistance is to be a felony; and to be addressed within our laws against racketeering. Pro Bono work will be at the option of the Provider, not of the Government.
