

**OPPORTUNITY: *Tell Legislators to Establish the Voice of Corporate Owners.***

**A MANDATE FOR STATE & FEDERAL LEGISLATORS**

My representatives are to enact legislation to recognize that 20% of the external investors of a corporation have standing to initiate and maintain a legal action against a corporation or any of its employees in tort or criminal proceedings. The courts and prosecutors shall accept this standing for both civil and criminal proceedings.

Public officers who receive any such action shall require written petition including the statement of agreement among petitioners indicating that this is the will and purpose of the investors who initiate the action. Original signatures may not be required of these investors, though the signature of the initiating representative of those petitioners will be attached along with the indication that this is the will and purpose of 20% of the external investors of the corporation.

Once initiated, the action can only be terminated by investors upon a written petition including the statement of agreement with indication that termination is the will and purpose of 80% of the external investors.

Corporate legislation will be modified to recognize that where 80% of the external investors of a corporation have agreed to issue instruction or assignment to the corporation, its leadership, or specific persons employed by the corporation, it shall be effective as if issued by an owner to employees.
